inlet pressure and prefilter condition

Built-in bypass, sample port and flush valves speed up installation and

SPECIFICATIONS

30-gallon atmospheric tank

OPTIONS

Model	Description	Part No
	Pressure reducing valve	
	Booster pump assembly	
Air Gap Kit	Air gap approved for drain	
	Floor stand bracket	
Mxing Valve	Thermostatic mixing valve	

REPLACEMENT CARTRIDGES

Model	Qty	Description	Part No
		Pref lter	
		Mneral addition	

It is recommended that pre-/post- filters and mineral addition cartridges are changed every six (6) months, when capacity is reached, or when feed water pressure or flow becomes inadequate.

The contaminants or other substances removed or reduced by this drinking water system are not necessarily in your water. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

Since the conditions under which our products may be used are beyond our control, we cannot accept any liability with respect to the improper installation, application and/or use of our products.
